- About
- Teaching
- Research
- Consultancy

I retired officially in 2010 but continue to engage in research and some teaching for Oxford Colleges and the Department of Physics. I am Emeritus Fellow of Jesus College Oxford. I am also an intrepid pilot of light aircraft.

My latest book "Crystal Clear: the Autobiographies of Sir Lawrence and Lady Bragg" has been published by OUP (see <http://ukcatalogue.oup.com/product/9780198744306.do>).

Our paper **The missing boundary in the phase diagram of $\text{PbZr}_{1-x}\text{TixO}_3$** . **Nature Comms.**, **5**, **5231 (2014)** has been awarded the Spriggs Prize by the American Ceramic Society.

In August 2014 I was elected **Vice President of the International Union of Crystallography**
<http://www.iucr.org>

Much of my time is now spent in bringing the subject of Crystallography to public attention, as it is relatively unknown. Here are some relevant examples:

Film on the Legacy of the Braggs: see <http://www.diamond.ac.uk/Home/News/LatestNews/02-09-14.html>

Catalogue of the Two Braggs Exhibition 2013 www.amg122.com/twobraggs 2014

Podcast for Royal Society of Chemistry <http://www.rsc.org/chemistryworld/2014/01/podcast-january-2014>

Filmed interview for Wellcome Trust <http://www.ndm.ox.ac.uk/part-2-the-history-of-structural-biology> 2014

Press Release for IUCr International Year (<http://www.iycr2014.org/about/media-kit>) 2013

Interview for Inside Science BBC Radio 4 (<http://www.bbc.co.uk/programmes/b03kv273>) 2013

Filmed for Diamond Light Source Video 2013

“The Two Braggs” public lecture at Oxford Museum of History of Science 2013

“Oxford Cryosystems” with Kat Orman, BBC Radio Oxford 2013

Organized “The Two Braggs Exhibition” at Warwick University 2013

“Bragg on the Braggs” with Melvyn Bragg BBC Radio 4 (<http://www.bbc.co.uk/programmes/b0383vb0>) 2013

Demonstrated at Big Bang Fair, London 2013

“Crystal World”, Teacher’s conference for IOP Oxford 2012

Crystallography: “In Our Time”, BBC Radio 4 (<http://www.bbc.co.uk/programmes/b01p0s9s>) 2012

“Crystal World” open lecture for Oxford Science week 2012
